Welcome
Yellowstone offers a variety of enjoyable and challenging trails for skiers. All trails are marked but may be untracked. On some trails, the difficult sections can be avoided by skiing part way in and returning by the same route. The quality of your experience will depend upon the amount of planning and preparation you do prior to your trip. We suggest that you stop at a visitor center or ski shop and discuss your trip. The staff will be happy to provide current information on weather, trail, snow conditions, and alert you to any special winter hazards.

Some backcountry trails are suitable for travel, but should only be attempted by experienced parties with appropriate equipment. Overnight camping requires a free backcountry use permit which must be obtained in person from Mammoth or Old Faithful visitor centers, or West and South entrance stations. Wood fires are not permitted.

Trail Etiquette
• Do not snowshoe or walk directly on ski tracks.
• Do not snowshoe or walk directly on ski tracks.
• Do not snowshoe or walk directly on ski tracks.
• Do not snowshoe or walk directly on ski tracks.
• Do not snowshoe or walk directly on ski tracks.

Safety
Trails may have natural hazards such as animals, avalanches, thermal features, downed trees, steep slopes and cliffs. When skiing near thermal areas, stay on marked trails. Approaching thermal features is dangerous and prohibited. The snow in these areas is often icy and crumbling. Some backcountry trails are suitable for travel, but should only be attempted by experienced parties with appropriate equipment. Overnight camping requires a free backcountry use permit which must be obtained in person from Mammoth or Old Faithful visitor centers, or West and South entrance stations. Wood fires are not permitted.

Trail Ratings
Trails are rated by the National Park Service with trail ratings specific to Yellowstone National Park. We strongly encourage all skiers to inquire at a visitor center or Xanterra Ski Shop before beginning their first ski trip. Weather conditions may cause icy trails, deep snow, or barren sections, and in some instances make trails difficult to follow, increasing the difficulty of a trail. Trails are not groomed or checked daily.

Easiest
Skiers need basic knowledge and limited experience in the diagonal stride, snow plow, and side stepping. Trails may have short downhill and uphill stretches.

More Difficult
Skiers need to be experienced. Trails are hazardous and terrain is frequently extreme. Turns are often sharp and linked together with no room to snow plow or herringbone.
