Weather: Summer: Daytime temperatures are often in the 70s (25c) and occasionally in the 90s (35c). Nights are usually cooler and temperatures may drop below freezing. Thunderstorms are common in the afternoons. Spring & Fall: Daytime temperatures range from 30s to 60s (0 to 20c) with overnight lows in the teens to single digits (-5c to -20c). Snow is common in spring and fall. At any time of year, be prepared for sudden changes. Always be equipped with a wide range of clothing options. Be sure to bring a warm jacket and rain gear, even in the summer.

Guest facilities: In the early days, Yellowstone's visitors began their park exploration at Mammoth Hot Springs, named after the steaming travertine terraces just above the hotel area. Today, Mammoth Hotel offers a warm welcome to summer and winter visitors. Elk routinely graze outside the hotel around the parade grounds of what was once Fort Yellowstone. In winter, Mammoth is accessible by car and is a hub of snowy adventures, offering Nordic skiing, snowshoeing, ice skating and a launching point for a variety of unique oversnow explorations of the park's interior. The hotel, built in the 1930's has a beautiful lobby area, guest rooms, a gift shop and the "Map Room", which displays an amazing inlaid-wood map of the United States. Guest cabins are located behind the hotel. A fine dining room, lounge, and a fast food operation are located in a building across from the hotel.

Employee facilities: Employees live in **Aspen, Spruce, Juniper, Lodgepole** or the **Terraces**. Two or three residents are assigned to each room. Aspen is a two-story, 50 room facility; rooms have semi-private bathrooms. Spruce (22 rooms), Juniper (49 rooms), and Lodgepole (33 rooms), are all two-story facilities with community bathrooms. All four residences have a lobby area, laundry room and pay phone. The Terraces is a second-floor residence hall located above the dining room. This area has a community bathroom, pay phone and laundry facilities.

An Employee Recreation Hall with work-out equipment and a sports court is located behind the Mammoth Hotel. The Employee Dining Room (EDR) is located in the same building as the guest dining facilities.

Mammoth is located only five miles inside the north entrance of the park (Gardiner, Montana). As you drive, bike, or hike the main road or the "old road", you may be lucky enough to catch the bald eagle watching over the Gardner River from the "Eagle Tree", see some deer or pronghorn antelope, or see some resident Bighorn Sheep along canyon walls. There is plenty to see and do! We are sure you will enjoy it all.
